

NWS-PA02C PERSONAL ALARM

Congratulations on your decision to purchase this very cost-effective Personal Alarm. This Alarm is an additional choice for people who can't fight back or can't scream loud enough to scare off attackers. It is well known that very loud noises can startle would be attackers and turn bystanders into witnesses. Be sure to follow the instructions for maximum protection and remember that this alarm is only a deterrent and you are encouraged to have alternative plans in place to protect yourself and or your belongings.

Personal Alarm Introduction:

This Personal Alarm is fitted with a high intensity LED strobe that produces a flashing light when the 120dB alarm is activated. Additionally, the personal Alarm can be used as an independent torch when the side button is pressed.

Operation:

To operate the alarm in a panic situation, simply pull the ripcord pin out of the socket. To stop the flashing light and alarm sounding replace the pin into the socket on top of the unit. To use the alarm as a torch, simply push the button located on the side of the unit.

Battery Replacement:

Loosen the two screws on the back cover of the alarm with a small Phillips head screwdriver. Gently part the back from the front of the alarm to access the battery compartment. Attach a 9-volt battery to the connector and place it into the compartment provided. Refit the back cover and tighten screws.

Warning:

The high output siren fitted to this quality personal alarm may cause ear damage if used at close range for a prolonged period. Keep away from children and pets! This product is designed to be used as a deterrent and does not guarantee protection, or your personal safety.

Warranty:

Batteries are not covered by any warranty. Disconnect the battery if the alarm will not be in use for long periods of time. Whilst the product is made from tough ABS plastic, the manufacturer does not warrant the product against damage from being dropped or exposed to water (fluids). Retain your purchase receipt for any warranty claims. The warranty period is 90 days from the date of purchase. Return all claims, postage paid to your point of purchase.

Accessories:

We have two accessories available for the Personal Alarm. One is a replacement plastic clip which is attached to the strap and the other is to turn the Personal Alarm into a security alarm by utilising a special spring metal sensor which sounds the alarm if the two prongs become separated. This accessory can be used in doors and windows, placed under expensive items like laptops and much more. The model is NWS-PAA2 and the price is \$5.95

Warranty:

Batteries are not covered by any warranty. Disconnect the battery if the alarm will not be in use for long periods of time. Whilst the product is made from tough ABS plastic, the manufacturer does not warrant the product against damage from being dropped or exposed to water (fluids). Like most things, occasionally there can be a failure which may have originated in the factory and we call this sort of failure as a Factory Defect. Generally, the defect presents right away or as soon as you test the unit. If for any reason you test your new Door Stop Alarm and find it does not work, pack it up and post it back to our offices with a note on the issue along with a copy of your Invoice (purchase receipt) and we will replace it promptly, postage paid back to you. Retain your purchase receipt for any warranty claims.

The warranty period is 90 days from the date of purchase. Return all claims, postage paid to your point of purchase.
